Report on “Human Values and Ethics - Positive Thinking”

An Essay Writing competition on “**Human Values and Ethics - Positive Thinking**” was organized by MLR Institute of Technology on 10/03/2023 for students.

A positive attitude keeps everyone trying new things, feeling brave about brainstorming new ideas, and makes people feel excited to go to work with their co-workers. Positive thinking is a way of processing information with an optimistic outlook. Great positive thinkers understand that life can be challenging, but they approach challenges with determination rather than defeat. They move forward decisively and seek help when they need it to get the job done.

A positive attitude is about maintaining that optimistic mindset and attitude even when things are in utter chaos. When one starts thinking optimistically, mind becomes clear of any negative thoughts and witness the world in a new light.

Positive thinking means approaching unpleasantness in a more positive and productive way. You think the best is going to happen, not the worst. Positive thinking often starts with self-talk. Self-talk is the endless stream of unspoken thoughts that run through your head.

183 students have participated for the competition. Many students in their essay presented

- What is positive attitude ethics?
- What are the advantages of positive attitude and positive thinking?
- How the benefits of Positive Thinking help Mind & Body?
- How do you keep a positive mindset at work?
- Why is it important to be positive?

Report on “Human Values and Ethics - Stress, Anxiety”

A workshop on “**Human Values and Ethics - Stress, Anxiety**” was organized by MLR Institute of Technology on 06/01/2023 for students with the main aim to promote values and to nurture culture that facilitates academic atmosphere and competency development among the students. The session was conducted by “**Shantharam**” from Marri Laxman Reddy Institute of Technology and Management.

The speaker started his core presentation by posing few extremely important questions like:

What are the usual causes of stress in your life?

What are the usual behavioral effects of stress and anxiety?

What are the usual psychological or emotional effects of stress and anxiety?

People under stress experience mental and physical symptoms, such as irritability, anger, fatigue, muscle pain, digestive troubles, and difficulty sleeping.

Anxiety, on the other hand, is defined by persistent, excessive worries that don't go away even in the absence of a stressor.

Under stress, our values may change. The state of arousal changes our brain chemistry and leads us to act in uncharacteristic ways. Stress can play a part in problems such as headaches, high blood pressure, heart problems, diabetes, skin conditions, asthma, arthritis, depression, and anxiety.

291 students have attended the session. The students have gained the knowledge,

- How does stress and anxiety affect decision-making?
- How can stress affect the quality of life?
- How does anxiety affect judgment?
- How Anxiety can lead to unethical behavior?
- How lifestyle changes can help alleviate symptoms of stress and anxiety.

A Report on "Human Values and Ethics - Affection, Care, Reverence, Love"

A seminar on "Human Values and Ethics - Affection, Care, Reverence, Love" was organized by MLR Institute of Technology on 16/09/2022 for students with the main aim to promote values and to nurture culture that facilitates academic atmosphere and competency development among the students. The session was conducted by "Dr. Rajesh" from Siva Sivani Institute of Management.

The speaker started his core presentation by posing few extremely important questions like:

What do you mean by a value in relationship?

What are the nine feelings in human relationship?

Affection or fondness is a "disposition or state of mind or body" that is often associated with a feeling or type of love. It has given rise to a number of branches of philosophy and psychology concerning emotion, disease, influence, and state of being. "Affection" is popularly used to denote a feeling or type of love, amounting to more than goodwill or friendship. Writers on ethics generally use the word to refer to distinct states of feeling, both lasting and spasmodic. Some contrast it with passion as being free from the distinctively sensual element.

Care has been defined as the process of taking care of oneself with behaviors that promote health and active management of illness when it occurs. Individuals engage in some form of self-care daily with food choices, exercise, sleep, and dental care. While the concept of self-care has received increased attention in recent years, it has ancient origins.

Even a very simple demonstration of affection can have a broad variety of emotional reactions, from embarrassment, to disgust, pleasure, and annoyance. It also has a different physical effect on the giver and the receiver.

Reverence is "a feeling or attitude of deep respect tinged with awe; veneration". The word "reverence" in the modern day is often used in relationship with religion. This is because

PRINCIPAL

Laxman Reddy Avenue, Dandigal
Quintapalem, Hyderabad-43
TELANGANA, INDIA

religion often stimulates the emotion through recognition of a god, the supernatural, and the ineffable. Reverence involves a humbling of the self in respectful recognition of something perceived to be greater than the self. Thus religion is commonly a place where reverence is felt.

Love encompasses a range of strong and positive emotional and mental states, from the most sublime virtue or good habit, the deepest interpersonal affection, to the simplest pleasure. An example of this range of meanings is that the love of a mother differs from the love of a spouse, which differs from the love for food. Most commonly, love refers to a feeling of a strong attraction and emotional attachment.

262 students have attended the session. The students have gained the knowledge on

- The nine universal values in relationship
- Difference between the belief and understanding
- How is 'trust' the foundation value of relationships?
- How does affection lead to harmony in the family?

Ref. No: MLRIT/PRN-OFFICE/PEP/2022-23/01

A Report on “Human Values and Ethics - Right Understanding”

A talk on “**Human Values and Ethics - Right Understanding**” was organized by MLR Institute of Technology on 10/08/2022. for students with the main aim to promote values and to nurture culture that facilitates academic atmosphere and competency development among the students. The session was conducted by “**Tella Gandhi**” from Malla Reddy Institute of Management.

The speaker started his core presentation by posing few extremely important questions like:

What is right understanding?

What is an example of right understanding?

What are the components right understanding in human values?

Right Understanding refers to higher order human skills – the need to learn and utilize our intelligence most effectively. Everyone need to understand the harmony at all levels of their living, family and society. The need for right understanding and relationship is what distinguishes a human being from an animal. Fulfillment of relationships based on right understanding leads to mutual happiness.

270 students have attended the session. The students have gained the knowledge on,

- Right understanding and its impact on human beings
- Where should we have the right understanding?
- How essential is right understanding for mutual happiness?
- What is the role of right understanding in value education?
