### Sub: Ban on Single Use Plastic in the Campus – reg.

Use of plastics cause severe environmental pollution and it is not very distant in the future that there will be more plastics in our water bodies than fishes. Production of single use plastic also consumes massive quantities of fossil fuel.

Single use of plastics like carry bags, straws and bottles are non-biodegradable and cause severe environmental issues. In order to promote green campus initiative, single-use plastic is banned in the campus. Students and staff members are requested to cooperate.
